

Quattro

PERFORMANCE SERIES

Choose the seat that makes the grade.

The Quattro Performance Series is well-schooled in safety, performance and style.

Meet the next generation of wood school seating, blending classic plywood design with advanced Hussey performance and safety. Durable Quattro Performance Series seats stand up to the rigors of your school environment. Beautifully and affordably.

Like all Quattro products, these plyform seats are different by design. More than strong, they're built school-tough with backs and seats made from 11-ply cross-banded plywood. Flat-sided oval steel tube stanchions add strength as well as style. And its modular design means repairing or replacing parts is elementary.

Be on the safe side.

With school seating, it's essential to play it safe.

Our signature seat back design extends below the seat to keep toes from getting pinched. Low-profile hardware and fasteners and an enclosed hinge mechanism deliver an attractive design that's tamper-resistant as well.

The Quattro Performance Series is backed by a limited lifetime warranty — the best in the business. For overall seating value, it's most likely to succeed!

Performance + style and safety = unmatched value.
