

Quattro

PERFORMANCE SERIES

Take school seating to the top of its class.

The Quattro Performance Series is a study in safety, performance and style.

Kids can be tough on seating, but this seat is built even tougher. Superior performance, safety, style and value are its greatest strengths. Durable Quattro Performance Series seats are fashioned in school-proof polymer — with style that adds a touch of class to auditoriums.

Like all Quattro products, these seats are different by design.

- Sturdy stanchions — in solid die-cast aluminum or flat-sided oval steel tube — offer a clean, modern look.
- Seats are easy to upgrade with shared Quattro components.
- Designed for easy life-cycle maintenance, all parts are easy to replace. For even greater flexibility, we offer a complete line of accessories.
- A wide range of standard colors and optional back insert designs let you customize your space.
- Performance seats stand up to the rigors of your school environment. Beautifully and affordably.

Be on the safe side.

With school seating, it's essential to play it safe. Our signature seat back design extends below the seat to keep toes from getting pinched. Low-profile hardware and fasteners and an enclosed hinge mechanism deliver an attractive design that's tamper-resistant as well.

And the Quattro Performance Series is backed by a limited lifetime warranty — the best in the business.

Quattro Performance Series is the smart and stylish choice for value that lasts and lasts.
