

Quattro

PERFORMANCE SERIES

Audiences applaud Quattro Performance.

Discover seating as versatile as it is durable, attractive and safe.

Sports arenas and entertainment venues — the Quattro Performance Series is comfortable in either setting.

This affordable seating is designed for star-quality performance with an eye for beauty and style.

Like all Quattro products, these seats are different by design. Virtually indestructible, these rugged polymer seats offer value that lasts and lasts. Sturdy stanchions — in solid die-cast aluminum — offer a clean, modern look. And our wide range of standard colors and optional back insert designs invite you to customize your space.

Because Quattro Performance Series seats are interchangeable with other Quattro products, they're easy to upgrade or mix and match. You can create tiered seating that goes from polymer to plush, while maintaining a singular aesthetic style.

Performance seats are designed for safety and easy upkeep. Our signature seat back design extends below the seat to keep toes from getting pinched. Low-profile hardware and fasteners and an enclosed hinge mechanism deliver an attractive design that's tamper-resistant as well. All parts are easy to replace with shared Quattro components. For even greater flexibility, we offer a complete line of accessories.

And the Quattro Performance Series is backed by a limited lifetime warranty — the best in the business.

**From general admission to luxury suites,
Quattro Performance Series can easily change roles.**
